CHD Stories: Meet Drew

Drew recently celebrated his 17th birthday! Drew has a CHD called Hypoplastic Left Heart Syndrome (HLHS). He has had three open-heart surgeries and six cardiac catheterizations. Without surgical intervention, Drew's heart defect is fatal within days of birth.

Drew's aunt was also born with HLHS. However, 45 years ago, there were no treatment options and she passed away when she was only 3 days old. Today, because of advancements made through research, more infants with CHD survive to adulthood, like Drew.

The Children's Heart Foundation is dedicated to funding the most promising CHD research so that more advancements can be made. Since 1996, CHF has funded nearly \$8.4 million of Congenital Heart Defect research. To see the research projects CHF has funded, [click here](#).

California Pizza Kitchen Fundraiser Was a Success!

Thank you to everyone who participated in the [California Pizza Kitchen \(CPK\) fundraiser](#) for The Children's Heart Foundation!

On May 12th, 20 CPK locations across the country participated in a fundraiser for CHF, where 20% of each customer's purchase, when a flyer for the fundraiser was presented, was donated to CHF! So far, with only 12 of the 20 stores totals in, CHF raised over \$1,580!

Thank you to Jenny Shrensker for organizing the fundraiser, and thank you to CPK for supporting our cause!

CHF's mission is to fund the most promising research to advance the diagnosis, treatment, and prevention of CHDs. Our goal is to bring health, hope, and happiness to children and families impacted by CHDs.
